DETAILED ACTION

1. Claims 7, 8 and 31-38 are allowed. Claims are re-numbered as 1-10.

Allowable Subject Matter

2. The following is an examiner's statement of reasons for allowance: The prior art of record discloses a computer security system that utilizes role-based identifiers and a surrogate identifier is created to correspond to each user role and is stored in the data store; a user is given permission to access secured functions within an application by retrieving a surrogate identifier from the data store, which shares the same user role as the user. However, the prior art of record does not explicitly disclose establishing trust relationship via communications having public-private key pairs between the first principal and second principal; determining if the trust relationship is permissible; receiving a dynamically generated public key from the first principal associated with a dynamically generated private key; and making the dynamically generated public key accessible to the second principal in light of other features disclosed in independent claim 7.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
